

The background of the slide is a solid blue color with a gradient. Overlaid on this are several large, semi-transparent circles in various shades of blue, creating a layered, abstract effect. The circles are positioned such that they overlap each other, with some appearing more prominent than others.

Two-faced

By Arielle Cababat

Research

- I wanted to do something relating to Hawai'i mostly because I was homesick and the pace of this class was killing me.

Needing finding

- From this, I thought maybe I should simplify the interactive musical map.
- I thought maybe I should just do a traveling website.

Paper Prototype

- Went back to square one.
- I just don't know what it expected of me in this class.
- I just thought maybe I should do something more user friendly because everyone else who was getting a lot of feedback was doing something user friendly.
- So the end result was to make a two sided interface.

The end result

- The interface is something that I feel is not worth showing, but I had to turn in something.
